## PROFESSIONAL SUMMARY

Results-oriented Software Developer and AWS Certified Cloud Practitioner with a comprehensive foundation in Java, Python, C++, C, and Web Technologies (HTML, CSS, JavaScript). Technical expertise spans across robust solution development, bolstered by a strong command of Core Concepts (DSA, OOP, DBMS, SQL) and modern Tools & Platforms (Git, GitHub). Proven track record of engineering diverse, high-impact applications, including scalable AWS Cloud Architectures (S3, Lambda, API Gateway, CloudFront), Machine Learning (Linear Regression) models, and secure Blockchain (Solidity) systems. Driven by solving complex algorithmic challenges and creating innovative, effective software solutions.

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming Languages** | Java, Python, C++, C, Solidity |
| **Web Technologies** | HTML, CSS, JavaScript, React, PHP |
| **Core Concepts** | Data Structures & Algorithms (DSA), DBMS, SQL, Object-Oriented Programming (OOP), Linear Regression |
| **Tools & Platforms** | Git, GitHub, AWS S3, AWS Sagemaker, AWS Lambda, AWS API Gateway, AWS CloudFront |

## PROJECTS

### Crisis Response Management Command Center
*HTML, CSS, JavaScript*

A comprehensive system designed to coordinate resources and communication efficiently during emergency crises.

### SKE Textiles Inventory Platform
*React, JavaScript, CSS*

An inventory and sales management platform tailored specifically for optimizing textile manufacturing business operations.

### E-Voting Using Blockchain
*HTML, CSS, JavaScript, Solidity, Blockchain*

A secure and transparent voting application leveraging blockchain smart contracts to prevent fraud, ensuring tamper-proof elections.

### Online Quiz Management System
*PHP, JSON*

An interactive quiz platform for educational institutions featuring real-time scoring, question management, and performance reporting.

## EDUCATION

### BSc Computer Science
*Expected Graduation: 2027*

VIT University Vellore (In Progress)
